Mechanical  
coding

# E-2000™ security levels

- **1st Security level:**

- Color Coding System (Visual coding)

- **2nd Security level:**

- Mechanical coding (+ Visual coding)

- **3rd Security level:**

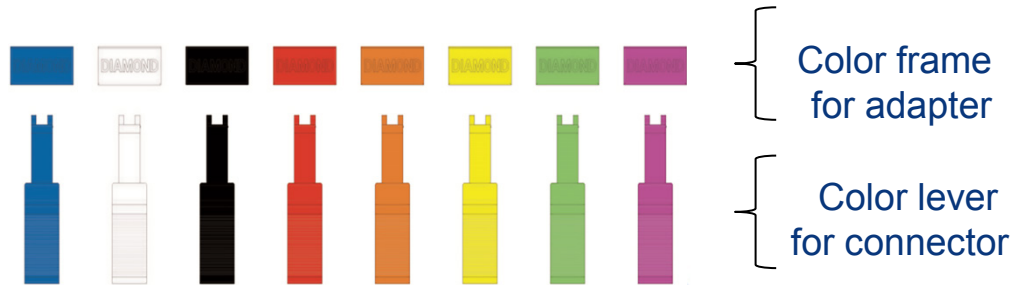

- Mechanical coding (without thumb-latch)

# 1<sup>st</sup> Security level: Color Coding System (Visual coding)

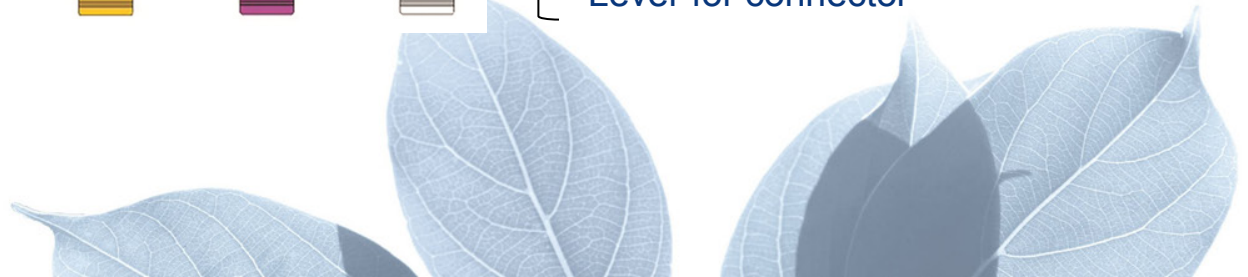

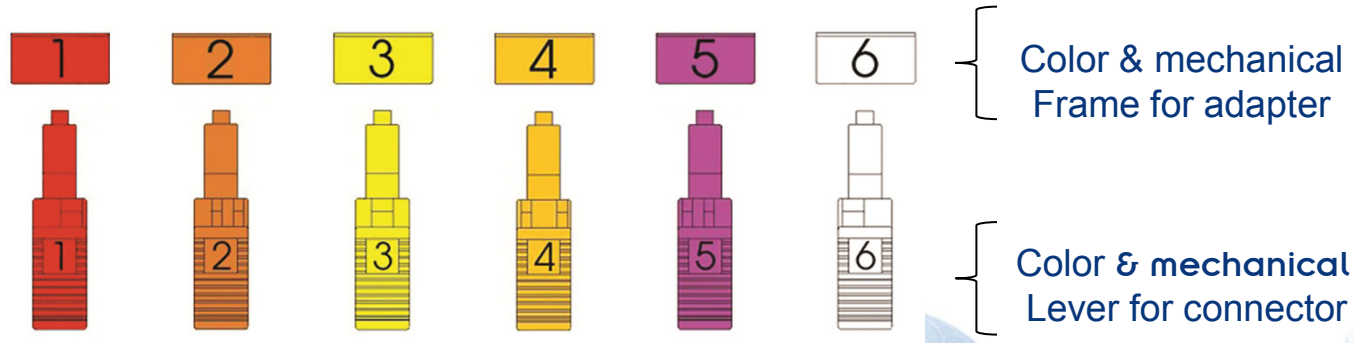

- 8 Standard colors available (others on request)
- Clear and fast identification
- Color code, can be changed at any time in the field

# 2<sup>nd</sup> Security level: Mechanical coding + visual coding

- The mechanical coding system involves 6 variants
- Prevents connectors being connected to the wrong adapters

# 3<sup>rd</sup> Security level: Mechanical coding (without thumb-latch)

- Unlock mechanism. The connector can be released only by adding the lever
- It protects connectors to passive & active devices (switches, surveillance cameras, etc.) against unauthorized access.
